- 1). Dimension A doesn't reflect DEUTSCH drawings reference 006-0005-** (for every sizes, the center distance of the oval radius shown on the following picture has been forgotten. This dimension isn't functional. We propose to indicate the new A dimension shown on the figure page 2, with the tolerance $\pm 0,30$).

La visualisation de l'entraxe (oublié dans le calcul de la cote A) a été retirée de la figure page 2 (qui peut dorénavant être intégrée directement dans la spécification) et se situe plus logiquement au § justificatif page 1.

Bon weekend.
