

DOCUMENT CHANGE REQUEST

DCR number	978	Changes required for:	MRB decision	Originator:	LOBERT CHRISTOPHE
Date:	2016/04/08	Date sent:	2016/02/23	Organisation:	Connecteurs electriques Deutsch
Status:	IMPLEMENTED				

Title: Contacts Electrical Crimp for 3401/007 and 3401/008 Connectors

Number: 3401/009 Issue: 5

Other documents affected:

Page:

17

Paragraph:

4.4.3.2 Sleeves

Original wording:

The sleeves of female contacts shall be made of Monel.

Proposed wording:

The sleeves of female contacts variants 02-04-06-08-10-12-14 shall be made of stainless steel . The sleeves of female contacts variants 16-18-20 shall be made of nickel -copper alloy Monel

Justification:

after a recent client inquiry , it was confirmed that the sleeves assembled on female contacts variants 02 to 14 were actually made of stainless steel. Investigation has conducted to confirm that a modification was done in 1987 , by an engineering order . It concerned standard contacts , but modification involved SCC variant contacts by extension . It is assumed that there is no technical impact :

Corrosion : validated during LAT

magnetism : refers to detail specification 3401/008 : not applicable

Note : Connecteurs Electriques Deutsch is the only manufacturer qualified for 3401/009 contacts documentation related to these products(PID) shall be updated to reflect the proposed update .
