Paragraph:

Dimensions R MIN. / R MAX.

Original wording:

2 dimensions for variants without back shell : 0.75 mini / 0.95 maxi and 0.95 mini / 1.15 maxi
2 dimensions for variants with back shell : 1.75 mini / 1.95 maxi and 2 mini / 2.2 maxi

Proposed wording:

1 standardized dimensions for variants without back shell : 0.75 mini / 0.95 maxi
1 standardized dimensions for variants with back shell : 1.75 mini / 1.95 maxi

Justification:

The 2 dimensions for variants without back shell and 2 dimensions for variants with back shell are leading to confusion, risk of mix and multiplication of variants.
They are not justified from a functional point of view, thats the reason why we propose to keep only the minimum values.
All variants in the table are kept.
