

# DOCUMENT CHANGE REQUEST

DCR number 1387 Changes required for: General  
Date: 2020/11/13 Date sent: 2020/10/09  
Status: IMPLEMENTED

Originator: Carlo Gravina  
Organisation: IRCA - RICA Division

Title: Resistors Heaters Flexible Single and Double Layer, Follow-up Specification for ESA/SCC Detail

Number: 4009/002 Issue: 10

Other documents affected:

Page:

10

Paragraph:

1.6 - Chart - Tolerance value for Symbol G

Original wording:

$\pm 0,5\text{mm}$

Proposed wording:

$\pm 0,5\text{mm}$  or (4)  $\pm 0,5\%$

Justification:

In the past there has probably been an error in filling this field. Dimension G of a strip, which is the length of the sum of the dimensions B (B1 to B5), cannot have a tolerance of  $\pm 0,5\text{mm}$  if an individual heater has a wider tolerance (e.g. an individual heater with tolerance  $\pm 0,5\%$  of the length, where this  $0,5\%$  is greater than  $\pm 0,5\text{mm}$ ).
