Title: Requirements for the Evaluation of Standard Electronic Components for Space Application

Number: 22600 Issue: 2

Other documents affected:

Page:

Para. 12 Page 9

Paragraph:

Para. 12 Page 9

Original wording:

Proposed wording:

Remove the repetition of Ancillary Specifications:

2263600 repeated four times

2264000 repeated twice

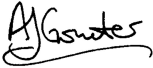

2265000 repeated twice

Remove the words Non-Microwave from the title of 2265000

Justification:

Repetition - correction of an editorial error.

Non-Microwave - Non-Microwave is not part of the title of Generic 5000. It is illogical therefore to specify it in the title of a subservient specification to 5000. Change required for editorial consistency.
