

DOCUMENT CHANGE REQUEST

DCR number 278

Changes required for: MRB decision

Originator: John Wall

Date: 2006/09/04

Date sent: 2006/09/04

Organisation:

Status: IMPLEMENTED

Title: Connectors Electrical for Printed Circuit Boards Removable Contacts Crimp Wire-Wrap Solder and

Number: 3401/016

Issue: 1

Other documents affected:

Page:

Page 60, Code 78.

Paragraph:

Page 60, Code 78.

Original wording:

Proposed wording:

Remove minimum limit for Dimension E.

Justification:

The manufacturer has not manufactured/delivered this particular code before and his internal drawing has a nominal 5mm for this dimension. The simplest solution to avoid affecting other manufacturers is to remove the minimum limit.

Modifications:

DCR278 Proposed Wording of Change

Page 60, CODE 78, Dimension E changed to be 4.90 min; 5.10mm max (was 5.40mm min; 5.60mm max)

Justification

CODE 78 is only currently available from ESCC QPL Manufacturer Hypertac/UK but the Hypertac/UK device has a 5mm nut (Hypertac/F does not support this device but does support similar device CODE 45)
