INTERMEDIATE AND END-POINT ELECTRICAL MEASUREMENTS Para in each spec (Para 2.7 or 2.8)

Paragraph:

INTERMEDIATE AND END-POINT ELECTRICAL MEASUREMENTS Para in each spec (Para 2.7 or 2.8)

Original wording:

Proposed wording:

In Para 2.7 or 2.8 (INTERMEDIATE AND END-POINT ELECTRICAL MEASUREMENTS):

- A) add "Unless otherwise specified," to the 2nd subpara as follows:  
"Unless otherwise specified, the test methods and test conditions shall be as per the corresponding test defined in Room Temperature Electrical Measurements."
- B) Amend in the table "Shock" to read "Mechanical Shock"

Justification:

For the purposes of clarification and consistency.

- for A) above: not all parameters listed in the table are included in Room temperature Electrical Measurements (e.g. RF leakage etc)
- for B) above: to be consistent with generic spec 3403.
