Paragraph:

3

Original wording:

Variant 15 to 20 : Max weight = 1,25g

Proposed wording:

Variant 15 to 20 : Max weight = 3.50g

Justification:

Based on the specification the ESCC3401-00916 should have a mass of 3g to respect the dimensions, raw material and plating thickness, or from variant 15 to 20 we have in the specification the same mass 1,25g which is in contradiction to the rest of the ESCC.
