

DOCUMENT CHANGE REQUEST

DCR number 977 Changes required for: General
Date: 2016/04/08 Date sent: 2016/02/15
Status: IMPLEMENTED

Originator: Steve Jeffery
Organisation: ESCC Executive

Title: Transistors Low Power NPN, based on type 2N2222A

Number: 5201/002 Issue: 7

Other documents affected:

Page:

5, 6, 11, 12, 17

Paragraph:

1.4.2, 1.5, 2.4.1, 2.9.2

Original wording:

See ESCC No. 5201/002 Issue 7.

Proposed wording:

See attached MSWORD file - ESCC 5201/002 Issue 8 Draft A.

Justification:

As a result of the changes which have been made via DCR 964, a few additional editorial changes, detailed below, should also be made:

- The "V(BR)CEO min V" and "hfe" columns in the table of Para. 1.4.2 are deleted because they are no longer relevant/required for distinguishing the available range of components (Type Variants).

- Similarly, the listings of applicable Type Variants against various Characteristics in the Maximum Ratings, Room Temperature Electrical Measurements and Electrical Measurements for Radiation Testing tables are no longer necessary and are therefore deleted.
