Paragraph:

Various, see below

Original wording:

As per 3401/032 issue 11

Proposed wording:

The following changes and additions are proposed by Manufacturer Glenair (see attachment 3401/032 Draft 12A for full details).

Some additional minor changes are also included for clarification & consistency purposes, and correction of errors:

Pages 6, 7, Table 1(a): See attached for details.

For all existing Variants add information in the Description column to clarify each Variants applicability.

e.g. Add shell size limitations; Add descriptive details to distinguish between Variants; amend applicable connector types; correct descriptions and For Use With column details .

Add new Variants 39 to 58.

Pages 8 to 25, Figure 2:

All Variants: Each drawing titles is amended to match the description in Table 1(a).

Variants 03 & 04: delete note 3.

Variants 09 & 23 to 26 merged into a single drawing.

New drawings for Variants 39 to 58 added.

Justification:

This DCR is raised on behalf of Glenair.

Changes are required to add new variants.
