

DOCUMENT CHANGE REQUEST

DCR number	1669	Changes required for:	General	Originator:	Steve Jeffery
Date:	2024/09/10	Date sent:	2024/06/12	Organisation:	ESCC Executive
Status:	IMPLEMENTED				

Title: Diode, Rectifier, High Voltage based on types STTH40200 and STTH60200

Number: 5103/033 Issue: 4

Other documents affected:

5106/023-7, 5106/024-4

Page:

10

Paragraph:

New Paragraph 2.3, CASE ISOLATION, is proposed to be added.

Original wording:

Not relevant or applicable to this DCR.

Proposed wording:

New paragraph "CASE ISOLATION" is added per the attached mark-ups escc5103033iss4 DraftA for DCR review.docx, escc5106023iss7 DraftA for DCR review.docx, and escc5106024iss5 DraftA for DCR review.docx.

Paragraph reference numbers are updated where applicable, e.g. "2.4.3" is now "2.5.3".

Justification:

Case Isolation is required to be performed in accordance with Para. 8.13 of the current Generic Specification on all Type Variants in TO-254AA package. Therefore, test details should be introduced to these specs via new paragraph 2.3 (as requested by manufacturer STMicroelectronics and agreed by the ESCC Technical Writer).
