Paragraph:

1.4.2 Component Type Variants

Original wording:

The table shown in the attached pdf file gives details of the Detail Specifications affected, package type(s), and the currently-specified package weights.

Proposed wording:

The table shown in the attached pdf file includes the proposed standardised package weights.

Justification:

This DCR has been raised by the T.W. following a request by the mfr ST to amend the specified SMD.5 and SMD1 package weights in the Detail Specifications.

The standardisation of the specified package weights is considered necessary.
