Original wording:

Proposed wording:

Total reformat of this Detail Specification (under Generic Specification No. 5000) as part of the ongoing conversion to the ESCC format. See below for summary of changes and attached Issue 2 Draft A of the Specification.

Note: known support for active procurement against this specification includes the following manufacturers:

STMICROELECTRONICS/F (ESCC QPL listed with qualified Variants 01 and 02)

SEMELAB/UK (not ESCC qualified but are currently willing to support the procurement of Variants 01 and 02)

Summary of changes to the current format, layout and content is as follows:

1. Rewording and restructure of various sections and paragraphs of the specification plus other editorial changes based on the layout and editorial content of other Detail Specifications already converted to ESCC format (e.g. changes described in DCR No. 203).
2. Deletion of any redundant paragraphs and information, e.g.: Mechanical Requirements.
3. Para. 1.7 High Temperature Test Precautions requirements moved to be a note in the Maximum Ratings table.
